ACTIONS

• Commitment to improve the overall public education quality

• Redefinition of the social role of schools and their priority from a pedagogic perspective.

• Participation and responsibility from all teams in school performance of children and students.

• Equity.
“Schools that are innovative go beyond their physical limits, empower children and professionals who work at them, keep parents and the community close, share duties with children and give importance to thinking, researching and questioning.”
- Continued formation in areas such as culture, technology and research. Professional follow-up from teachers inside and outside of classrooms.

- Incentive to more frequent participation of families in learning processes.
**Educultura** – cultural amplification of education professionals. Participation in performances, courses and workshops.

- 1,303 seats available throughout 55 courses;
- 33,342 tickets for performances;
- Cultural Weeks: 165,328 seats, 1,268 performances;
- Art Everywhere (Arte por toda Parte): 23,752 students and 222,422 cultural activities.
EduPesquisa – Incentive for research and investigation development, production, scientific article publishing, via regular classroom studies and virtual teaching and learning environments. Professionals are also granted a scholarship and tutoring by specialists from the Federal University of Paraná (UFPR) and Education Ministry, partners in the project that has already benefited 1,500 professionals, who in turn published their articles in education.

Resultados
EduTecnologia – Continued formation in technology use for Professionals of the Municipal Education Network.

• Regular and long-distance courses.
• Technology courses for students.
• Educational Videos – Social Media – Youtube: 290 thousand views/ Facebook: 50 thousand views.
Continued Formation Coordination
427 courses offered in 2015, totaling 100 thousand seats.
